*The trends in data need to be taken in the context of the COVID pandemic lockdowns:*

- *\*The 2020 data is using our internal standardised assessment from March 2020 just before the national lockdown. So, what the children were 'on track to get'.*
- *\*\*The 2021 data is using our internal standardised assessment in July 2021. So, what the children are 'likely' to have got if there had been national assessments.*

*Note: Our internal assessments are very similar to the national assessment papers or use previous national assessments as part of the test*
